

TRAINING PORTAL · USER GUIDE

Coordinator Guide

Everything your account can see and do inside the Training Portal — managing your own assigned consultants, their profile-change requests, and their training readiness.

Prepared for the Coordinator account tier · Confidential — internal use only

GETTING ORIENTED

Your place in the structure

Your account manages exactly one group: the **Consultants assigned to you**. You do not see or act on any consultant that isn't your own, and you don't manage any other type of account — Consultant is the only role you can create.

SECTION 1

Your Dashboard

Your home screen and reporting view, scoped to your own consultants only. It shows:

- Total, active, deactivated, and deleted (archived) counts for your consultants
- A breakdown of your consultants by training path
- Average completion percentage across your consultants' assigned training path
- A filterable table of your consultants — training path, extra courses, progress, last activity, status

Dashboard — stat tiles, breakdown, filters, and your consultant table.

SECTION 2

User Management

The list of your own assigned Consultants. Search by name or username, and act on any row — edit username, reset password, deactivate/reactivate, or delete (soft delete, kept for audit history).

User Management — your consultants only.

SECTION 3

Creating a Consultant

Consultant is the only account type you can create. Fill in their name, username, and password, then the consultant-specific fields: offshore office, technology, visa type, date of birth, and — optionally, since they can also be assigned later — a Trainer and an Otter Team reviewer for their post-training readiness sign-off.

Create account

Assign a primary training path and any extra courses from the consultant's "Training & progress" page after creating them.

Create User — the Consultant form, with all consultant-specific fields.

A primary training path and any extra courses are assigned afterward, from the new consultant's own "Training & progress" page.

SECTION 4

Profile Requests

When one of your consultants requests a change to their own profile information (for example, an updated email or phone number), it appears here for you to review before it takes effect.

Profile Requests — pending self-service change requests from your consultants.

SECTION 5

Location Overview

A readiness snapshot for your own consultants: how many are still "In Training" versus already "In Marketing" — the status a consultant reaches once both an independent demo sign-off and a second review sign-off have come back positive.
