

TRAINING PORTAL · USER GUIDE

Location Admin Guide

Everything your account can see and do inside the Training Portal for your own location — managing coordinators and consultants, the video library, reports, and placement readiness.

Prepared for the Location Admin account tier · Confidential — internal use only

GETTING ORIENTED

Your place in the structure

Your account manages everyone below it at your assigned location, in this order:

- **Coordinator** — manages their own assigned Consultants.
- **Consultant** — completes assigned training and tracks their own progress.

Everything you see and manage in the portal is scoped to your one assigned location — you cannot see or act on users, reports, or data belonging to any other location.

SECTION 1

Your Dashboard

Your home screen and reporting view, pre-scoped to your location. It shows:

- Total, active, deactivated, and deleted (archived) consultant counts — for your location only
- Breakdowns of your consultants by training path, coordinator, and location
- Average completion percentage by training path and coordinator
- A filterable table of your consultants — location, coordinator, training path, extra courses, progress, last activity, status

Use the filter bar, then click **Export** to jump to a filtered download of the same data.

Dashboard — stat tiles, breakdowns, filters, and your location's consultant table.

SECTION 2

User Management

The searchable list of everyone you're allowed to manage at your location: Coordinators and Consultants. Filter by role, search by name/username/coordinator, and act on any row — edit username, reset password, deactivate/reactivate, or delete (soft delete, kept for audit history).

Alex Rivera	e2e-guide-c1	Consultant	Guide Demo HQ	Guide Coord	Active	Edit username	Reset password	Deactivate	Delete

User Management — your location's Coordinators and Consultants.

Bulk Reassignment: move a batch of consultants to a different coordinator at once, without touching them one by one.

SECTION 3

Creating a User

You can create Coordinator and Consultant accounts. New Coordinators are automatically placed in your own location — you won't be asked to pick one. The form adjusts to show only the fields relevant to the account type you choose.

Create User — account type first, then only the fields that role needs.

SECTION 4

Videos

Videos are embedded from Google Drive — paste a share link and the portal builds the embeddable preview automatically. A video can be reused across multiple courses. You can add, edit, and archive videos; the surrounding course/training-path structure is managed elsewhere.

Videos — add, edit, and archive entries in the shared video library.

SECTION 5

Exporting Reports

Download the same consultant data shown on your Dashboard as a CSV or XLSX file, filtered by coordinator, training path, and status. Every export you run is logged automatically.

SECTION 6

Location Overview

A readiness snapshot for your own location: how many of your consultants are still "In Training" versus already "In Marketing" — the status a consultant reaches once both an independent demo sign-off and a second review sign-off have come back positive. This view is automatically scoped to your location; there's nothing to switch between.
