

TRAINING PORTAL · USER GUIDE

Location Manager Guide

Everything your account can see and do inside the Training Portal for your own location — managing your team, the shared training catalog, reports, and placement readiness.

Prepared for the Location Manager account tier · Confidential — internal use only

GETTING ORIENTED

Your place in the structure

Your account manages everyone below it at your assigned location, in this order:

- **Location Admin** — manages Coordinators and Consultants at the same location.
- **Coordinator** — manages their own assigned Consultants.
- **Consultant** — completes assigned training and tracks their own progress.

Everything you see and manage in the portal is scoped to your one assigned location — you cannot see or act on users, reports, or data belonging to any other location.

Global exception: the training catalog (Training Paths, Courses, Videos) is shared across the whole company, not location-specific — so your changes there apply everywhere, not just your location.

SECTION 1

Your Dashboard

Your home screen and reporting view, pre-scoped to your location. It shows:

- Total, active, deactivated, and deleted (archived) consultant counts — for your location only
- Breakdowns of your consultants by training path, coordinator, and location
- Average completion percentage by training path and coordinator
- A filterable table of your consultants — location, coordinator, training path, extra courses, progress, last activity, status

Use the filter bar, then click **Export** to jump to a filtered download of the same data.

Dashboard — stat tiles, breakdowns, filters, and your location's consultant table.

SECTION 2

User Management

The searchable list of everyone you're allowed to manage at your location: Location Admins, Coordinators, and Consultants. Filter by role, search by name/username/coordinator, and act on any row — edit username, reset password, deactivate/reactivate, or delete (soft delete, kept for audit history).

Reassign

Bulk Reassignment — select consultants, pick a coordinator, reassign.

SECTION 3

Creating a User

You can create Location Admin, Coordinator, and Consultant accounts. New Location Admins and Coordinators are automatically placed in your own location — you won't be asked to pick one. The form adjusts to show only the fields relevant to the account type you choose.

Create User — account type first, then only the fields that role needs.

SECTION 4

Training Paths

An ordered set of courses assigned to a consultant as their primary curriculum. Training paths are shared company-wide, not location-specific — create, rename, archive, delete, and manage which courses belong to a path and in what order.

Training Paths

A training path is an ordered set of courses assigned to consultants as their primary curriculum.

Name

New Consultant Onboarding

Description

Optional

Add training path

NAME	DESCRIPTION	STATUS	
Guide Demo Training Path	Sample path used for user-guide screenshots.	Active	Manage courses (1) Edit Archive Delete
SQL		Active	Manage courses (0) Edit Archive Delete

Training Paths — company-wide catalog structure.

Courses

Reusable modules made of videos. The same course can sit inside multiple training paths, or be assigned to an individual consultant as a one-off "extra course."

Courses

Reusable modules made of videos. Courses can be attached to multiple training paths or assigned individually as extra courses.

Name

Compliance Basics

Description

Optional

Add course

NAME	DESCRIPTION	STATUS	
Guide Demo Course	Sample course used for user-guide screenshots.	Active	Manage videos (2) Edit Archive Delete
Guide Demo Extra Course	Sample extra course used for user-guide screenshots.	Active	Manage videos (0) Edit Archive Delete
Onboarding Essentials		Active	Manage videos (0) Edit Archive Delete

Courses — reusable building blocks; "Manage videos" attaches/reorders the videos inside a course.

SECTION 6

Videos

Videos are embedded from Google Drive — paste a share link and the portal builds the embeddable preview automatically. A video can be reused across multiple courses.

Videos — the base layer of the catalog.

SECTION 7

Exporting Reports

Download the same consultant data shown on your Dashboard as a CSV or XLSX file, filtered by coordinator, training path, and status. Every export you run is logged, and — unlike other roles — your exports also send a notification up to the CEO.

Exports — download a filtered report of your location's consultants.

SECTION 8

Location Overview

A readiness snapshot for your own location: how many of your consultants are still "In Training" versus already "In Marketing" — the status a consultant reaches once both an independent demo sign-off and a second review sign-off have come back positive. This view is automatically scoped to your location; there's nothing to switch between.
