Offshore Team Lead Guide

Everything your account can see and do inside the Training Portal — keeping an eye on the consultants assigned to you.

Prepared for the Offshore Team Lead account tier · Confidential — internal use only

GETTING ORIENTED

Your role

Your account is a read-only view into the specific consultants assigned to you. You don't create or edit any accounts, and you don't manage catalog content, reports, or exports — this is purely a way to keep track of your own group.

SECTION 1

My Consultants

The full detail for every consultant currently assigned to you: name, username, email, phone, technology, visa type, date of birth, and status.
