

TRAINING PORTAL · USER GUIDE

Trainer Guide

Everything your account can see and do inside the Training Portal — running demo feedback for your assigned consultants and publishing your scheduling link.

Prepared for the Trainer account tier · Confidential — internal use only

GETTING ORIENTED

Your role

You see only the consultants explicitly assigned to you — one Trainer per consultant, not a shared pool. After each demo you give a verdict that becomes part of that consultant's official readiness record.

SECTION 1

My Consultants

Each assigned consultant shows their technology, visa type, status, and the latest verdict already on file (if any). Submit a new verdict — **Good to go with marketing** or **Not yet** — with optional notes after each demo. Every submission is kept as history; nothing is overwritten.

Alex Rivera @e2e-guide-c1

Java Full Stack - H1B

Latest verdict: Not yet (8/9/2026) — Needs more practice with the demo flow before we try again.

Submit feedback

My Consultants — feedback history and a form to submit your next verdict.

Why it matters: a consultant only moves to "In Marketing" once your verdict and a second, independent reviewer's verdict are both positive — your sign-off is one of exactly two required.

SECTION 2

My Profile

Update your own name, email, and phone; change your username or password; and — most importantly — publish your **Calendly link**. Your assigned consultants see a "Schedule your demo" link on their own profile that opens this link directly, so keep it current.
